

Purpose:

To create a process for entering a strike team/task force deployment incident into CAD when more than one agency is assigned to the strike team.

Procedure:

- The agency that is providing the Strike Team/Task Force Leader will create the incident in their CAD.
- The strike team/task force number, strike team/task force leader and units will be dispatched on to the incident via CAD by the agency entering the incident in CAD
 - Coordinating the resources assigned (including providing rendezvous location and time, and the STEN/TFL phone number(s))
 - Filling the request in IROC.
- Each participating agency will receive the incident via CAD2CAD.

It will be the responsibility of Central, Metro and NCDJPA to have the appropriate units built into their CAD and subscribed to in the CAD2CAD hub.

STRIKE TEAM/TF NUMBERS	
North	6410-6419
Central	6440-6449
Metro	6430-6439
East	6470-6479
